| **Isolation / Surgical Masks**| ▪ Continue to wear same mask across patients: Do not pull down or remove between encounters  
▪ Avoid touching mask  
▪ Discard after use, or if it becomes visibly soiled, moist or wet |
| **N95**                       | ▪ Discard only when visibly soiled, moist or wet or used during aerosol-generating procedures unless N95 protected with face shield  
▪ Store in brown paper bag labeled with your name |
| **Isolation Stethoscope**     | ▪ Keep in room and clean between healthcare workers and when patient discharged for next patient  
▪ Clean with approved disinfectant or alcohol pad |
| **Goggles**                   | ▪ Clean between healthcare workers and if visibly soiled  
▪ Clean with hospital-approved disinfectant |
| **Face Shields with Headband**| ▪ Assigned to individual healthcare worker  
▪ Discard only when non-wipeable areas are visibly soiled: foam, elastic band  
▪ Clean with hospital-approved disinfectant |
